

Submitter: Kristen Rohde

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2697

This bill is important to oversee health care ratios to properly care for patients. I am a Physical Therapist and there are no ratios, so many patients go untreated or must wait for many weeks for care due to dangerously low staffing. Ratios would require adequate staff to reduce delays and provide pertinent care for our populations that are less healthy and less educated after the COVID pandemic. This would establish consequences for the greedy corporations who rely on low staffing to make higher profits rather than serving those who feed into those profits.

We need to promote people over profits!!!
