

Submitter: Darcie Stone

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB795

Our neighbors and school children depend on these local family wage paying jobs, and deserve a highly funded education. Since the Elliott State Forest has already been wrongly removed as a revenue source you must return control back to the individual counties. They are capable of managing it for the greatest permanent value. We feel our land has been stolen out from under us. Sincerely, Darcie Stone
