Measure: SB422

As an avid motorcyclist who understands the importance of motorcycle safety, I unconditionally support SB422 for a myriad of reasons. Sitting in slow/stop & go traffic is one of the most dangerous places for a motorcyclist and getting rear ended is an absolute risk at all times. Lane sharing will allow me to tremendously reduce the risk of getting sandwiched between two automobiles in traffic. It will also reduce traffic for others, and allow motorcyclists to feel safer on the road. Please, lets legalize lane sharing!
