

Submitter: Michael Andersen

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB601

Homeownership isn't and shouldn't have to be for everyone, but homeownership is a great option for many people, and stability within one's home and community is vitally important to those who want it. A tenant opportunity to purchase program, if funded enough to help tenants actually take advantage of it, would give more tenants the opportunity to achieve that stability.
