Measure: SB776

Just to let you know us peasants are getting upset about a few things in Oregon.

1. You work for us... but somehow you seem hard at work to encumber private sector jobs.

2. You had the privilege of not being required to take a experimental vax... but citizenry were

forced by a mandate or lose their jobs SHAME ON THE GOV. AND SHAME ON YOU !

3. Many businesses we bankrupt because of the reckless mandates...and masks only serve to hide the guilty from the truth that masks can not stop a virus (John Hopkins did a study

and said so) as did some 30 other studies world wide ??

4. To consider Reparations for Black's only, is to ignore the realities all around us. Consider the Slaves being found in Oregon Pot Farms... and the Legislature only funded \$21 Million

to address that in 2020. (THIS IS SADISTIC !)

5. That this legislature will add Sales taxes on Timber and AG over carbon emissions is hypocritical.... as you have

ignored the NFS for their bad land management over 60% of lands in Oregon.

That the NFS is privileged and is not responsible for fires coming onto other peoples lands smacks of privilege.

That Property owners are held responsible when NFS wildfires cross their lands onto other lands is a double

standard that ought to scream at you.

Today I can't submit my testimony on insane Legislation like SB 530 or SB 776 (the system reports I have, but doesn't

show the testimony when I click to confirm).

Recently at the capitol I was talking to Sen Bonham and he said public opinion of Legislature is near 14%

Yes I think some 17 Legislators are Freshmen this year..... just maybe you should take the lead and speak up for

the peasants who are being taxed out of their homes if not out of Oregon
