

Submitter: Daniel London  
On Behalf Of: Daniel Quinn London  
Committee: Senate Committee On Judiciary  
Measure: SB422

I am a motorcyclist here in Portland, Oregon, It is more safe for us motorcyclists to be able to lane split/lane filter due to the amount of motorists that are most likely on their cell phone during rush hour traffic, if we are able to use the outer edge of the lane to lane filter, it will keep us out of the way of being rear ended.
