

Submitter: Maria Rodriguez

On Behalf Of:

Committee: Senate Committee On Health Care

Measure: SB491

As an OBGYN physician, I know the importance of basic fertility services being within reach for all Oregonians. Infertility affects 1 in 5 people, and is increasing. Oregonians from all walks of life struggle with fertility, and access to even a simple workup can be out of reach. This is basic healthcare and I support coverage.
