

Submitter: Thanh Ly

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB422

While traveling on a residential road, I was stuck in traffic and while waiting my motorcycle was rear ended by a driver who was not paying attention. If I was able to filter through stop traffic it would allowed me to safely bypass the traffic without getting hit in the rear by another driver.

This would one save me time and other drivers from having another vehicle on the road.
