

Submitter: Andrew Knipe
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB422

I have been riding motorcycles for 58 years. I'd like to add my support to this important bill. While I would never endorse reckless lane splitting, I consider it a prudent safety measure to be able to move up between autos at stop lights. I've known a number of people who have been severely injured when they were rear ended by an inattentive driver and crushed between vehicles, while waiting behind stopped traffic. It is a simple thing to simply be able to utilize the space between stopped vehicles, which shields the motorcyclist from grave, unnecessary danger. Thank you for considering this much needed law.
