

Submitter: Mary Jo Lockard

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB3

I am in support of this bill. I have worked in an Oregon School District for 25 years in a High School setting as a Paraprofessional. I work directly with students. I see most students struggle with the concept of financial issues and what they can do to figure things out. I believe every student should have classes that give them basic skills in every day living finances.
