

Submitter: Melisa Crosby

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2697

I am writing in support of HB 2697.

We need hospitals that are up to the task to provide care at a safe and compassionate level for patients – and safe and just level for workers. Unfortunately hospitals and giant health corporations have clearly put other priorities over quality of care. Patients and providers must always come before profits in a humane and just society. The State must step up to compel the quality standards we need in terms of how hospitals staff up and how workers' voices are determinative in the process. It is imperative that we have a health care system that works for all, instead of one that is breaking and hurting patients and frontline workers worst and first. Please pass HB 2697.
