Measure: SB776

Committee Members,

Apparently you do not have any idea on how ridiculous of a concept this sounds to anyone who thinks normally. While it fits right in with the madness that is Oregon politics, it is as divisive as any seen to date.

Please spend the 2 minutes with wise words of Milton Friedman on the theory of spending other people's money. It will link you up to many more pearls of wisdom. And then I would also suggest that you continue on and spend time with Thomas Sowell. both of these men are a national treasure.

Absolutely NO to any idea of another welfare producing mind set like SB 776.
