Measure: SB808

Please support Senate Bill 808. We need police reform in Oregon. Accountability is a big part of this, and the composition of the Commission on Statewide Law Enforcement Standards of Conduct needs to include others than police or police unions. The police are to serve the public, the Commission should include members of the public and not 2 members each of police management and of police union officers. This is a minor change in public participation, and the State of Oregon has public participation as a major goal.

In addition, the chair position change to a person appointed by the Attorney General will insure that the Commission is professionally run in a manner that will serve the public

thanks, please make these changes
