

Submitter: Wilfredo Benitez

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB421

I am writing in support of SB-421. Youth voices need to be heard as we figure out ways to address climate change in an equitable manner. Because climate change affects certain groups of our population disproportionately, we need a truly diverse voice to be represented in this fight of and for our lives. Our youth are smart, compassionate, trustworthy, and dependable. They are ready for change, hungry to do the work, and they deserve to be heard.

Thank you!
