

Submitter: Russell Lum  
On Behalf Of: Oregon Nurse  
Committee: House Committee On Behavioral Health and Health Care  
Measure: HB2697

It used to be when staffing became an issue, patient admits were limited to keep patients safe and adhere to staffing guidelines. Now, we have the push for a full house despite staff considerations. And so what's increasing is nurses being frustrated, nurses calling out — all around frustrated workers and managers.
