

Submitter: Chris Workman

On Behalf
Of:

Committee: House Committee On Agriculture, Land Use, Natural Resources, and
Water

Measure: HB3163

I am in support of HB3163 which supports continued funding of place-based planning related to water. While I recognize that this funding is limited to specific geographic areas, I also recognize the importance of successfully completing these pilot efforts and conducting a detailed cost/benefit analysis so future areas might take advantage of this type of regional planning opportunity. This type of planning is critical to ensuring water plans have an element of local control.
