

Submitter:                   nicholas smith

On Behalf Of:

Committee:                 Joint Committee On Transportation

Measure:                    SB445

I support this bill, and the safety and organization it may orchestrate in small and rural towns. It's time for the hard working blue collar small towns that support this great country to enjoy the benefits of each individuals hard work, and enjoy their tax dollars that used to support so many in other countries! America First! Once we are healthy and together then and only then may we support anyone else! Keep the work Mr Hayden.

Councilor Smith
