

I OPPOSE [SB 4]...

The "**Summary of [SB 4]** states, Directs Oregon Business Development Department to develop grant and loan program to support businesses applying for financial assistance under Creating Helpful Incentives to Produce Semiconductors for America Act of 2022 (P.L. 117-167). Provides that program be administered jointly by department and Governor. Allows Governor to designate certain lands to be brought within urban growth boundaries for specified industrial uses. Allows local governments to rezone lands for such uses by ordinance."

Does Oregon have any of the following for the Semiconductor manufacturing:

Electrical Power

From the Text of [SB 4]: "SECTION 8. Notwithstanding ORS 293.144, there is appropriated to the Oregon Business Development Department, for the biennium ending June 30, 2023, out of the Oregon Rainy Day Fund, the amount of \$210,000,000 to be distributed as follows:

...(1) \$200,000,000 for deposit in the Semiconductor and **Advanced Manufacturing Opportunity Fund** established under section 6 of this 2023 Act, to be used for the purpose of carrying out the provisions of sections 1 to 6 and 10 of this 2023 Act; and

...(2) \$10,000,000 for deposit in the **University Innovation Research Fund** established under ORS 285A.230, to be used for any purpose related to economic development for which moneys in the University Innovation Research Fund may be used.

...(3) In designating sites under this section, the Governor shall give consideration to the Cities of Albany, Boardman, Corvallis, Gresham, Happy Valley, Hillsboro, **McMinnville**, Medford, Newport, North Plains, Redmond, Scappoose, Sherwood, The Dalles, Tualatin and Wilsonville."

Save your money and time Oregon, you don't have the industrial base. By the way, McMinnville has nothing to offer.
