

Submitter: Shalimar Henderson
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB422

As a rider of an air cooled bike, lane sharing would prevent problems with overheating and leaving me stranded and vulnerable (not to mention a distraction exacerbating backups). Studies show that it is safer for a rider to lane share, than it is for them to be stopped in traffic, due to rear end collisions. Please support this bill for the safety of motorcyclists in the state of Oregon.
