Measure: SB422

To the Senate Committee on Judiciary: I practiced law in Oregon for over 33 years; largely handling personal injury. Nearly all that time, my focus was on motorcycle accident injury claims. I was also a long-time motorcycle rider, and I know that whenever I was stopped behind a line of cars on a highway, I was a sitting duck for a collision. In my opinion, this bill will prevent injuries and deaths from rear-end crashes. It was carefully crafted for safety, as only low-speed lane sharing is permitted. It also will save fuel and will aid in reducing traffic congestion. Thank you. -
