

Submitter: Kathleen Boylan

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB795

Chair Golden and Members of the Natural Resources Committee

I'm writing in opposition to SB 795 and county take over of Oregon's state forests.

These public lands belong to all the people of Oregon, not for individual counties that could choose to sell them. While the revenue of the state forests are used in our counties, more diversified funding streams must augment local budgets. In this time of climate change and increased wildfires I urge the committee to support forward-looking solutions for a more sustainable future with healthy forests and stable funding for county services

Sincerely,
Kathleen Boylan
