

Submitter: Josie Alexander

On Behalf Of:

Committee: House Committee On Early Childhood and Human Services

Measure: HB2872

HB 2872 sounds good but the ELD is too closely linked to ODE. This program states that free "age appropriate" books will be passed out. ODE does not know what "age appropriate" is.

Ben Bowman who is a sponsor of this bill also does not know what age appropriate is only relying on feelings & emotions is dangerous.

If this program sticks to free books that are NOT political (climate change, Justice, gender ) then great go at it. If this program is just another vehicle for an ideology to be pushed then vote no.
