

Submitter: Victoria Scheuerell  
On Behalf Of:  
Committee: Senate Committee On Judiciary  
Measure: SB808

Honorable Senators,

I support including more members of the general public which are not affiliated with law enforcement on the Commission on Statewide Law Enforcement Standards and Discipline. Including more members of the general public and professionals from diverse backgrounds will give the Commission more credibility. Given the current mood of the country, having credibility is especially important.

Thank you for your consideration,  
Victoria Scheuerell
