

Submitter: Samuel Butler
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB422

Hello,

I have been riding motorcycles for many years and I'm very supportive of this bill as it has the potential to be a safety improvement for motorcyclists as I've almost been rear ended several times in stop and go traffic, as well as decreasing pollution by allowing traffic to keep moving and also for the rider and motorcycle to stay cool in hot conditions that can be dangerous in the summer sitting at a standstill on hot pavement with full gear on. I hope that this bill can be passed. Thank you for your consideration.

-Sam Butler
