

Submitter: Wyatt Petersen  
On Behalf Of:  
Committee: Senate Committee On Judiciary  
Measure: SB422

I support motorcycle lane sharing and SB 422. I work as a Trauma ED RN at Legacy Emanuel here in the heart of Portland, my hometown. For all my adult years I have commuted with bicycles, public transportation, motorcycles, vespas and cars. I love that Portland embraces so many modalities of transportation and creates a safe space for everyone to share the road.

Lane sharing from my personal experience is safer for drivers, riders and everyone on the road. From a professional standpoint in the trauma medical service it would serve to reduce situations that lead to fatalities on the road.

I hope you choose to support creation of safe space for all transportation modalities on the road with a vote for SB 422. Thank you for all that you do and keeping our city strong and united.

Wyatt Petersen, RN
