

Submitter: Milton Moran Jr  
On Behalf Of: myself  
Committee: Senate Committee On Energy and Environment  
Measure: SB803

I strongly oppose SB 803. Oregon already has enough legislation and rules that require clean fuel standards. New diesel engines in cars to heavy equipment and trucks are designed to significantly reduce harmful emissions. We need to be able to produce and utilize this vital fuel to maintain Oregon's economic stability and growth.

I strongly urge you to oppose this bill that would be harmful to Oregonians.

Thank You for your service to Oregon.
