

Submitter: Mark Cosby
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB615

Hello Senate Judiciary

SB 615 would seem practical based on speed racing seen in Portland.

I'd only mention pg 2 lines 4-5 say "(B) Spins the vehicle's rear tires continuously by pressing the accelerator and increasing the engine speed;"

My guess is most rice burners these days are front wheel, all wheel and a few 4 wheel drives (just sayin).

Portland has been ignoring Felony's for 7 yrs now, (how does it serve the public to go after exhibitionist kids when Felon Assaults, burning Buildings and rioting are ignored).

If this becomes law... Lane co would not enforce it as they are currently not prosecuting Felony Assaults or misdemeanors. (simply not in the budget).

Seems lawlessness in Oregon is rampant from Gov office down to people in the streets.

Gov. Kate Brown let over 1,000 rapist and murders out of prison and shut down two Prisons.

SB 1510 (2021 legislation hobbled police).

SB 776 is really about not prosecuting violent assaults and drug crimes... (this legislation is a admission of defeat IMO).
