

Submitter: Bryan Mitchell

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB422

I've been an avid motorcycle traveler for many years. I absolutely support SB422. Being able to go in between cars in traffic is a much safer place to be in stop and go traffic, on a low visibility vehicle like a motorcycle. I've ridden in California many times where this action is legal. It's so nice, and I've never had any issues with car drivers understanding, and even giving a little more space in their lane for me to cruise through.
