

Submitter: Jessie Vinton

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure: SB803

I'm in opposition of this bill as it will destroy Oregon. Our farmers and truck drivers require diesel to run their equipment. We rely on our truckers for transport of goods and our farmers for not only produce, nuts, and other food items but for hay, alfalfa, seeds to feed our livestock. Our ports also run on diesel. If you care about OREGON AND ITS PEOPLE, you'll vote no on this horrendous bill.
