

For whom it may concern

March, 2, 2023

I respectfully submit my/our opposition of any development for Chip or other industrial/commercial manufacturing outside of the UGB. What the heck are you greedy evil corporations trying to do ruin some of the best agricultural land in the country. Plenty of space is available inside the boundary for development. Why do you evil greedy corporations and politicians want to ruin our quality of life. This is insane. I rest my case. Inclosing, you greedy people wish to destroy one of the most beautiful areas in the valley. GO AWAY
