

Submitter: Nancy Waters

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB85

It is so important that the moratorium on factory farms is continued. The unnecessary suffering is beyond atrocious! Humanity will rue the day they assisted our fellow creatures to be treated like a piece of garbage... the animals are treated violently , sexually even, not mention the beatings! One of the worst is gestation cages... the mother pugs can't even turn around, for up to 3 years of keeping her pregnant and producing profit for the mega-farms. It's repugnant! Please protect them!
