

Submitter: David Wall
On Behalf Of: Mr Oregon Opposes SB 221
Committee: Senate Committee On Natural Resources
Measure: SB221

I OPPOSE [SB 221].

Why should the Geology and Mining Industries be saddled with added expense, to continuously fund, "Electronic Permitting System Subaccount" to conduct their businesses in Oregon?

The taxpayers will end up paying for the "Electronic Permitting System Subaccount" via increased costs passed onto the consumer of the Geology and Mining Industries.

The State of Oregon does not invest in State Departments due to, their insatiable addiction to fund housing for the illegal aliens Oregon welcomes and shields from Federal authority detection, thereby aiding and abetting more and more illegal immigration (a Felony). Oregon wastes enormous amounts of tax dollars on housing issues.

David S. Wall
Mr. Oregon Concurr.
