

Submitter: Julie Crocker

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: SB445

There are a number of safety issues needing addressed in our community regarding traffic; one of the top priorities should be a signal at highway 20 and Pleasant Valley Rd. Too many accidents and near misses at this heavily trafficked intersection. I have elderly parents living in Pleasant Valley, and I fear someday it might be them that doesn't make it through this intersection. I've had several near misses myself
