

Submitter: Armand Stanila  
On Behalf Of:  
Committee: Senate Committee On Judiciary  
Measure: SB422

I'm in favor of this bill for two main reasons.

1. It protects riders from being rear ended by inattentive drivers
2. Motorcycles get very hot while idling and not moving. If motorcycle isn't in motion, all that heat goes strait to the rider. This makes many riders opt out of wearing protective gear, especially on hot days.

Allowing riders to keep moving at slow speeds of 20 to 30mph would solve both of these issues.

Thank you
