

Submitter: Katie Dunwell
On Behalf Of: Councilor Katie Dunwell
Committee: Joint Committee On Semiconductors
Measure: SB4

I ask that members of the Committee remove Wilsonville from Section 10 of SB4, unless Sections 10 and 11 are modified to remove any language allowing supersiting outside of the UGB. Wilsonville has developable land within its UGB and does not need or support supersiting adjacent farmland outside of its UGB, more specifically the French Prairie Rural Reserves.

The foundational farmlands of the French Prairie Rural Reserves are considered the best of the best of Oregon agricultural farmland. If developed, and the soil scraped away, it is virtually impossible to return the land to its prior state as an Oregon agricultural treasure.
