

Submitter: Linda Karceski

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: HB3152

I am against banning natural gas. There is no way our infrastructure can support everyone solely on electricity. I do not want to rely solely on electricity to heat my home, cook my food, do laundry, light my home and charge a car. It won't work. Not to mention having recently purchased new gas appliances and furnace, who can afford to replace all of these items? I cannot! Gas is an affordable and safe fuel source. DO NOT BAN NATURAL GAS!
