

Submitter: Paula Feldmeier

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB85

Please enact this proposed legislation. Besides the unbelievable inhumane practices of CAFOs, these operations are terrible for human health and the environment. From water pollution to contributing to climate change to putting family and ethical small farming operations out of business to environmental justice concerns - CAFOs only serve one purpose - to line the pockets of the companies that own them at the expense of the public and humane treatment of animals. I know you'll hear from their lobbyists about how wonderful they are. Don't listen to those paid shills. Let the facts guide you - and us Oregonians who are tired of watching such large industries ruin our environment. Thank you.
