

Submitter: Shea Anderson

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB633

Please support and pass this bill. As someone with autism spectrum disorder, and as someone who has worked with special needs children, I know firsthand how valuable Serendipity Center's therapeutic education model, offering 1-on-1 coaching and support, is to encourage Oregon's special needs students to grow, learn, and thrive.

Serendipity Center has 44 years proven experience, across 5 Oregon counties, working to transform students into productive adults. Please move this bill forward to replicate this success statewide. Thank you.
