

Submitter: Peter Crosby
On Behalf Of: Peter and Darlene Crosby
Committee: Joint Committee On Semiconductors
Measure: SB4

This is being submitted in support of the of the City of Wilsonville's request to withdraw Wilsonville from the list of lands to be considered for Chip Plan Supersiting. While in support of developing Chip Manufacturing capabilities domestically, we feel that siting in French Prairie would be an additional onerous blow to property values of land owners in Charbonneau inflicted upon us by the State of Oregon. The proposed tolls on the Boone Bridge at an already known bottle neck, increased traffic along Miley and Airport Road, and now the Chip Siting seems to be an unbalance financial burden on residents of Charbonneau. That coupled with previous commitments by the State to protect the French Prairie Rural Reserve being breached seems to be a targeted bias by State Officials. Protect Charbonneau and surrounding farmlands from the Clackamas County Commissioners and their speculative supporters with a NO to include Wilsonville and French Prairie Rural Reserve. Do whats fair.
Peter and Darlene Crosby
