

Submitter: Hillary Lund

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB854

"I strongly oppose SB854. We need our children to receive an education that goes back to focusing on the basics of reading, writing, math and critical thinking. We do not need them to be indoctrinated into the questionable science of climate change." Feel free to expand on the message we have provided, the simple message was created for your convenience. We encourage you to express how you personally feel about the bill and how it may affect you personally.
