

Submitter: Chris Orsinger

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: HB3196

Dear members of House Committee on Climate, Energy and Environment:

I urge you to support HB 3196. This bill will demonstrate public accountability in management of Community Climate Investment funding. The authorization of the fee to implement this program is a reasonable and necessary action to achieve greenhouse gas reduction goals while creating flexibility for regulated businesses and entities and reducing greenhouse gas emissions through clean energy efficiency investments in disadvantaged and rural communities. This is good policy and legislation that, if combined with other climate solutions, will reduce the harm to future generations from climate change.
