

Submitter: Jen Hamaker  
On Behalf Of: 11000 Concerned Oregonians  
Committee: Senate Committee On Natural Resources  
Measure: SB85

ONRI opposes restricting food production, especially with increasing food costs.

ONRI does not support making it harder for farms to update their existing facilities with upgrades designed for long term sustainability.

This unnecessary bill also threatens to drive up already sky-high food prices, increase carbon emissions, and force an over reliance on out-of-state food suppliers.
