

Submitter: S C

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB85

To the Legislators,

Large confinement operations that house animals are inhumane and cause suffering to all animals. No animal is happy or healthy living jammed together with other animals, standing or lying on cement or in urine and feces, and often fed diets that cause them illness; (See the documentary King Corn.)

Confined animals are also exposed to extreme weather with no opportunity for escape or reprieve. A humane person or society would not allow this mistreatment of animals.

No to factory farms.
