On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB85

To: Senate Natural Resources Committee

From: Marian Carter

Re: Support for SB85, the factory farm moratorium bill

Dear Chair Golden and Members of the Senate Natural Resources Committee,

My name is Marian Carter, I live in Elkton, and as a citizen writing on behalf of all us: fellow citizens, creatures, the environment, I hereby state that I wholeheartedly support a factory farm moratorium in Oregon.,

Factory farms make lousy neighbors: they foul the water all of us need in order to survive. and for those of us living nearby can make the air almost unbreatheable, (This I know from prior living experience elsewhere). The treatment they afford the so-called food animals in their care is an absolute disgrace and abomination; the working conditions for their employees, particularly those on the slaughter lines, horrible, and in some instances, life threatening. We don't need more of these things; we need fewer. We need that moratorium.

Sincerely,

Marian Carter

Factory

[Now, share why you care about stopping the expansion of factory farms in Oregon, or how living near factory farms has impacted your life. You could include 2-3 of the talking points below from the section(s) that are most important to you.]

I urge you to vote for SB85 in the 2023 legislative session to protect our climate, environment, rural communities, and family farms.

Sincerely,
