

Submitter: Kateri Morton

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB85

I'm writing to urge you to support SB 85. Factory farms pollute communities, use water and other resources that those communities need, harm the environment, and squeeze out family farms that are using resources more responsibly. Family farms directly feed their communities and are invested in caretaking their land. Please ensure that small farms can continue to survive and operate sustainably. Bring a moratorium to factory farms.
