

Submitter: Daniel Harris

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB85

The Agriculture industry is already staggering under an inappropriately heavy load of regulations resulting in the daily increase in food prices to the consumer.

The further constrictions contained in this bill will not only result in even higher food prices, but the cost and difficulty of implementing them will drive more farmers/ranchers out of business--further affecting the cost and availability of food.

This bill is being written to go into force before research/investigation of the situation is done--inappropriate and unfair.
