

Submitter: Norman C Bain

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB85

As a livestock grower and producer this bill is a huge detriment to the Livestock Industry. Whomever submitted this bill must not understand that your beef is not made by Safeway or Walmart. You have to have feedlots to fatten the beef before slaughter in order to produce the quality of meat that these markets receive to resell to the public. Don't take that away or suffer the consequences.
