

Submitter: Connor MacKenzie

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB85

Factory farming exacerbates the existential crisis that we are facing in the form of climate change. We need decisive action from the state to promote small farms and regenerative farming practices and part of that action must be weakening the chokehold that factory farms have on the food market. I am an involved voter in the Eugene area and I strongly support the passage of SB 85.
