

Submitter: Henry Shaw

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB85

This bill is so important for our rural communities. Places like Scio, Oregon; places with humane practices and land use; if this bill does not pass, they will be stranded. Factory farms are not only inhumane on the most basic level, they also massively impact our fragile environment, and without regulation we as a state will never be able to move away from these harmful practices. Small communities will be harmed if these factories are allowed to exist and continue without regulation. I urge you to support SB 85 for the humane treatment of non-human animals and for the health of the essential rural communities of our state.
