Jadey Holcomb  
Favor of SB85

Dear Senators,

It is crucial that you vote in favor of this bill. Factory farming not only kills livestock, but harms those who live around it as well. We should be prioritizing the health of Oregonians, not making it worse. This would make so many greenhouse gasses go into the environment, something I know Oregon does not want to support. Factory farming is a cruel practice, and pollutes the air, not only harming animals, but citizens of Oregon as well. Drinking water needs to be protected and air needs to be breathable.

Sincerely,  
Jadey Holcomb
